PROFILE SUMMARY

I am a motivated and detail-oriented Web Developer with a solid understanding of building responsive and user-friendly applications. Proficient in React, Node.js, Tailwind CSS, and version control tools such as Git and GitHub, I enjoy creating clean, efficient, and scalable solutions. I take pride in writing maintainable code, integrating APIs smoothly, and following modern UI/UX practices.

EDUCATION

2021-present
SHREEYANTRA COLLEGE
BSc.CSIT

2019-2021
DEVI MADHYAMIK VIDYALAYA
10+2

PROJECTS

Service Friend

NodeJS, MongoDB, Tailwind CSS

- Developed a web-based platform that bridges the gap between local service seekers and providers through a centralized and intuitive system.
- Implemented secure password handling with hashing algorithms to ensure safe registration, login, and user data protection.

E-Commerce Clone(Front END)

HTML, CSS, JS

- Developed a fully responsive e-commerce homepage using HTML, CSS, and Font Awesome to replicate modern online shopping UI patterns.
- Built a clean, intuitive navigation bar with search functionality, cart icon, user account section, and location selector for enhanced user experience.

Simple CHATBOT

React

- Developed a functional chatbot interface using React.js, showcasing state management and dynamic message rendering.
- Implemented message input handling and automated chatbot responses using a predefined Chatbot.getResponse() API.
- Rendered the entire chatbot application using ReactDOM.createRoot(), following modern React best practices.

Simple Note App

NodeJS, MongoDB, Tailwind CSS

- Built a simple note-taking application using Node.js and Express, implementing full CRUD operations.
- Allowed users to create notes with a title and corresponding events, store them, and retrieve them easily.

TECHNICAL SKILLS

- NodeJS
- TAILWIND CSS
- REACT
- RESTful APIs
- Git, GitHub
- Responsive Design
